PROJECT EXPERIENCE

The study of employee satisfaction in Tierra food India Pvt Ltd

- The primary objective of the research is to find employees satisfaction level of the organization.
- To understand the problem of the employees in the working condition.
- To study and analysis the various factors affecting the job satisfaction level.

Findings

- The average satisfaction score was 4.3 out of 5, including moderate satisfaction. Employees were generally satisfied with work life balance and team collaboration. Factors affecting jobs are the main factors of job satisfaction, which may be challenging work reward systems, equal pay for equal work.
